

Methods of Continual Professional Development

When talking to people about their learning needs, we've discovered that the methods in the diagram opposite are really useful ways of embedding learning in your organisation.

One helpful way of using the tool would be to take a couple of minutes, either during your next Staff Meeting, or when working one to one with a colleague, to pick out the top three methods which have contributed to your own learning, or, in other words, your Continual Professional Development (CPD).
